

Warren Michigan Businesses Past-and Present

This update now lists nearly 9,000 businesses

With further research will list over 10,000 historic businesses.

Researcher professorwesarnold@gmail com 586 522 7631

This is an ongoing research project which means the researcher had to look at old phone books and yearbooks to find these historic businesses. This work was all entered by hand as old digital copies of phone books were not available at this time. This was a lot of work taking many months. Also note that sometimes the information found is incomplete leading to an entry that is sketchy. But this is the best work and at this time the only work available on Warren businesses. The researcher also made this book as inexpensive as allowable as he seeks to preserve our history rather than make a profit. Besides there is very little demand for Warren Area history books of which this researcher has published over 144 on Barnes and Noble and Amazon and on his own website warrenhistory.com.

01 The first businesses were simple barter for food, fur, tools and other things with others. In the Warren Michigan area this appears to have been over 11,000 years ago and continues to present time. Prehistoric peoples traded with other peoples as far as Mexico. Also there may even have been trade with aliens but these reports were censored and the items removed. Note the reporter is just reporting what he has discovered. Note there is now testimony to congress on proof of aliens. See my most important research book "Important Secrets and 1000 Valuable Useful Ideas for Happiness and Success + Get Good Stuff Free" and the multi volume Who's Who all free at valuableideas.fyi.
